Participant Information Sheet *01/09/2025*
(EXAMPLE BSc mini-module)

You are being invited to participate in a research study titled 'Catchy Title of Research Project'. This study is being conducted as part of a Master's thesis project by Jane Doe] from TU Delft, as part of an internship at Acme Corporation.

The purpose of this research study is to investigate topic X: to do so, we are asking experts on topic X to take part in semi-structured interviews. The interview will last approximately 1 hour and will involve questions about your occupation, as well as your opinion on topic X, topic Y, and topic Z.

The interview will take place in person, and will be audio-recorded. The recording will be used to create an anonymous transcript that will contribute to an anonymised and aggregated dataset, which will be used for analysis for the Master's thesis of Jane Doe. The thesis will be made publicly available in the TU Delft Repository.

To the best of our ability, your answers in this study will remain confidential. We will minimize any risks to your professional reputation resulting from potential re-identification by storing your personal data, including your name, contact information, and the audio-recording of the interview securely using institutional storage provided by TU Delft. Only the Master's student and their supervisors have access to this storage. Your personal information will be destroyed at the end of the research project in May 2026.

Your participation in this study is entirely voluntary and **you can withdraw at any time**. You are free to omit any questions during the interview. After the interview recording has been transcribed, you will be asked to review the transcript before it is finalised and fully anonymised. If you wish to withdraw from the study after the interview has taken place, you can do so until the transcript has been approved and anonymised. After anonymisation, it is no longer possible to remove your research data from the dataset.
